

WORKFORCE FLORIDA BACKGROUND AND OVERVIEW

Florida’s landmark Workforce Innovation Act of 2000 created and charged Workforce Florida, Inc. to meet the workforce needs and challenges of Florida businesses. Workforce Florida accomplishes this by linking workforce and economic development strategies through business-driven initiatives and programs to ensure that Florida’s workforce has the skills that will meet current and future business needs. It also promotes an environment where Floridians have the opportunity to upgrade their education and skills to obtain jobs that lead to economic self-sufficiency.

Workforce Florida’s 45-member board created by Chapter 445, Workforce Innovation Act, Florida Statutes, is appointed by the Governor. Administration of the state’s workforce policy, programs and services is carried out by the 24 business-led regional Workforce Development Boards and the Agency for Workforce Innovation through almost 100 One-Stop Centers located throughout Florida.

Florida’s Workforce Development System

Florida’s workforce system was designed to create partnerships between economic development, workforce development and businesses. In addition, the system is operated through performance based contracts that increase accountability of all partners to meet strategic and legislative mandated goals.

Local control is another key component of Florida's workforce system. While each regional workforce board has performance measures and contracts to provide accountability, the choice of initiatives and programs it implements are under the local board's control. Local control allows for programs to address the economic development, business and workforce needs of each particular region of the state.
