

Welfare Transition Reports

The attached Welfare Transition reports detail the outcomes of Welfare Transition participants over time. The most recent quarters are reported along with the baseline group from October 1996 showing WAGES participants who started work during the fourth quarter of that year. Job placements data is provided by FETPIP (Florida Employment and Training Information Program). FETIP has computer cross-matched all five quarterly groups against the Florida employer wage reports and TANF records for the quarter indicated below to reveal how many are still on payroll, the average earnings for each group, breakouts of part-time and full-time earning levels, percentages still receiving TANF and total numbers/percentages found working, still on TANF or both.

An equal opportunity employer/program. Auxiliary aids and services are available upon request to individuals with disabilities. All voice telephone numbers on this document may be reached by persons using TTY/TDD equipment via the Florida Relay Service at 711.
